

Request

I'm looking for information on the number of Christmas trees that have been illegally dumped in Wigan.

If specific data on Christmas trees isn't available, the total number of recorded fly-tipping incidents would suffice. Ideally, I'd appreciate both figures.

Please provide a breakdown of this data over the last three years (2022-2024) organised:

- Per year.
- Per month.
- Per area for each time frame.

If this breakdown is not available, then the overall figures per year for each area is fine. Please can the data be shared in an itemised spreadsheet.
