

## Request

I would like the list of all the dates the allotments in leigh were last inspected for rule breaches and abandonment.

I would also like the reports or paperwork from this identifying how many were in breach of the rules and how many are unused.

Any further information possible regarding this over the last 2 years please

## Response

We do not hold this information; the allotments are not inspected on a frequency-based system. Council officers monitor the condition of the allotments during ad-hoc visits.

Correspondence relating to enforcement proceedings for breach of tenancy agreements are subject to GDPR and cannot be released.

16 plots are currently vacant and being re-let and 7 plots are in breach of the tenancy agreement.

Without further details, we are unable to answer this question.
