

Request

1. Please can you advise (for the Worsley Mesnes ward) how many days you have not collected bins during May June & July.
2. Which bins have been affected on each occasion & how many days delay residents have had to endure?
3. Please advise what “operational issues” mean? It’s a bit vague for a repeated issue.

Response

Eight Days in total across four occasions we did not collect blue bins on scheduled collection day

Only Blue bins were affected.

Three Tuesday collections where residents had to wait three days for collection.

One Friday collection where residents had to wait one day for collection.

High volumes of sickness due to the covid virus which meant not all refuse collection vehicles could be deployed.
