

REQUEST	16749	RESPONSE
	<p>I would like to request an FOI for traffic light outages and failures, i.e lights all showing green etc, at the junction for Riverway road in Wigan. In particular the junction that's near Rodney Street and HX car park.</p> <p>I would also like to receive how many accidents have been caused here due to traffic light outages and failures.</p>	<p>Wigan Council does not manage or maintain fixed traffic signals. If you wish to request this information, you will need to contact Transport for Greater Manchester (TfGM) via their FOI process.</p>
