

Request

1. Does your council have a written anti-poverty strategy (this may also be referred to as a 'poverty strategy')? This may be an all-age strategy, or one focussing on a specific group of the population, such as a child poverty strategy. If so, please provide a link to the strategy if it is available publicly, or a copy via email.
2. If your council does not have an anti-poverty strategy in place, does it plan to develop one within the next 12 months? If so, please provide a link to any public facing document detailing this commitment.
3. Has your council voluntarily adopted the socio-economic duty?

Response

We do not currently have a published strategy.

We are in the final stages of publishing a Financial Wellbeing Plan which focusses on all ages. We have engaged with public and voluntary sector partners when developing this plan including our health partners and will continue to work together to reduce inequality and become a healthier and happier borough.

Socio-economic disadvantage is part of our equality commitment and is considered within our Equality Impact Assessments
