

## **Request**

NEU members have asked me to find out about staff turnover in some of our Wigan schools and I have been directed to you by Wigan HR department.

Can you tell me what data is held about maintained schools, please and how this is broken down? For example, do you hold data on turnover for teachers and support staff and is this further broken down into equalities data such as age, sex and ethnicity? How long is this data held for?

The schools I wish to enquire about are:

- Parklee Community School Atherton
- Tyldesley St Georges Central
- St Philip's Atherton
- St Bernadette's Catholic Primary
- Shevington Vale Primary

Any information you can give me about turnover since 2018 would be helpful.

## **Response**

We do not report on turnover for individual or groups of schools.

Each school should be contacted to provide the data as the respective employer. These schools access Wigan Council payroll services as part of the wider Wigan Council payroll offer, and so data on a school-by-school basis cannot be extracted.
