

Please can you send me answers for the following questions about your organisation:

1. How many homes to let at a social rent package (including London Affordable Rent and London Living Rent where applicable) do you have in your housing stock, either directly or through an ALMO or a wholly owned housing company (please list them separately?)

20,275 – as at 19/06/2024
2. How many comms people in your organisation work on housing communications? This includes anyone tasked with things like media relations, social media, marketing, web operations, public affairs, and so on. Please list the posts and what proportion of their time is spent on housing comms, as a proportion of a full time equivalent post.

A proportion of the staff time for 3 staff is charged to the HRA to represent the cost of the time spent working on HRA related communications.
3. Are those staff members paid for from funds in your housing revenue account (ie your tenants rent) or by other means? Please explain how if it's the latter.

As above (Q2)
