

## Request

I would like to request the following information regarding supported living services for adults (aged 18-64) with a primary support need of learning disabilities (LD).

Please also include data for adults (aged 18-64) with Autism Spectrum Disorder (ASD) where information is captured for this cohort or where this is recorded as a primary support need.

Supported living may also be called Supported accommodation or Supported housing and is a housing scheme where housing, support and care services are provided to help people with disabilities live as independently as possible in the community. Providers of supported living will be registered with the CQC to deliver personal care to service users.

Long term care is provided to clients on an ongoing basis and varies from high intensity provision such as nursing care, to lower intensity support in the community such as the provision of direct payments to arrange regular home care visits.

## Response
