Request

I am writing to request the most recent shape files related to Tree Preservation Orders (TPOs) in a recognized vector format. Currently, our ability to analyze TPO-designated areas is limited by insufficient detail, and access to these files in vector format is essential for accurate mapping and planning purposes.

If shape files are not available, we would be happy to accept a CSV or XLS file listing all protected trees along with their coordinates so that we can map them accurately in GIS software.

As TPOs are part of public land and environmental records, these files should be publicly accessible. I kindly request that you provide these files in the specified formats for ease of use and integration with our mapping systems

Response

Shapefiles of Individual and Area TPOs can be downloaded from the Wigan Council Open Data site at the following links:

Individual TPOs at Tree Preservation Orders - Individual | Wigan Council Open Data
Area TPOs at Tree Preservation Orders - Areas | Wigan Council Open Data

An interactive map of all TPOs is publically available at Tree Preservation Orders
