

Request

Please could I have the following information relating to the year 7 admissions process for children with EHCPs.

Please provide the number of consultations held with schools for each of the past three years (2024,2023,2022). Note: this is only for the year 7 admissions round.

If possible, please make clear if this is parental preference or LA preference.

For each year, please provide the name of the school (and it's URN) involved in a consultation. Please include the number of consultations it was involved with, and the outcome of those consultations (either accepted or rejected). Please provide this information in excel format if possible.

For example. School X, URN: 123, 15 consultations, accepted 10, rejected 15

NOTE: I am confident this will not be the case, but if you envisage it will take more than 18 hours to collate this information - please just do so for the 2024 year instead.

Response

Due to a change from one case management system to another, data can only be provided for academic year 2023/24 as this is what the Council holds.

Please see separate spreadsheet.
