

I am after information relating to the number of potholes and the cost spent on potholes under your jurisdiction.

Wigan Council don't identify defects as 'potholes' so the information provided is details of all highway defects identified in the carriageway.

In particular, are you able to provide me with:

1. The cost to make a pothole safe (temporary repair). Please provide information for the listed years below only.

Wigan Council don't undertake temporary repairs. All defects are permanent repairs. No data stored.

2022, 2023 and 2024

2. The cost to fully repair a pothole. Please provide information for the listed years below only.

2022 - £333237  
2023 - £366207  
2024 - £408886

2022, 2023 and 2024

3. How many potholes were recorded in your jurisdiction for the below years? Please provide information for the listed years below only.

2022 - 3328  
2023 - 3877  
2024 - 5041

2022, 2023 and 2024

4. Of those recorded, how many of those were fully repaired or made safe? Please provide information for the listed years below only and separate out by whether they were made safe or fully repaired.

Wigan Council don't undertake temporary repairs. All defects are permanent repairs. Figures listed in answer 3.

2022, 2023 and 2024

5. What is the most times the same pothole has been 'made safe' (temporary repair) in one year. Please provide information for the listed years below only.

Wigan Council don't undertake temporary repairs. All defects are permanent repairs. No data stored.

2022, 2023 and 2024
