

REQUEST 17655

I am seeking any plans or documentation held by Wigan Council relating to a section of disused railway, specifically plans showing the railway assets and any assets sold or disposed of in the past including land, buildings, structures or bridges.

The location concerned is the Whelley Loop Line footpath through Whelley and Amberswood, and any associated land.

I believe the land was sold from British Rail to Wigan Council and therefore any documentation would have been passed over at the time of sale.
