

# APPENDIX E – RAW DATA

## Meeting to Discuss the Rec

Held at: The Boars Head, Standish

Date: 30/05/2017 at 8pm

Present:	Standish Voice (SV)	Don't Wreck Our Rec (DWOR)
	Gill Foster (GF)	Jim Meehan (JM)
	Paul Ogden (PO)	Sherri Holden (SH)
	Ron Wade (RW)	Shaun Booth (SB)

All parties agreed that the meeting should focus on common ground between the two groups.

Both groups agreed that the Rec should be better used.

Both groups confirmed that they were working in what they saw as the best interests of Standish.

Both groups confirmed that there was no underlying political motivation in anything they were doing.

Both groups agreed that more parking is required in the centre of Standish.

Both groups agreed that an alternative car park solution would be ideal and will be investigated further.

SV stated that Residents living in the centre of Standish had their lives blighted by the parking issue and SV was committed to finding a solution to the problem.

SV stated that their policy on the Rec had not yet been decided, but once it was it would only be published along with the rest of the Neighbourhood plan and not before.

DWOR accepted that there was a proportion of Standish residents who would like to see a park on the Rec.

DWOR stated that 90% of their group wanted the Rec to remain as it is.

DWOR stated that if the Rec was used as a football pitch or a park in future, that their group would prefer users to park on the road, rather than provision made on the Rec.

DWOR stated that until the SV policy on the Rec was made public it would continue to campaign.

## Meeting to Discuss the Rec

Held at: The Boars Head, Standish

Date: 01/08/17 at 8pm

Present: Standish Voice (SV) Don't Wreck Our Rec (DWOR)  
Gill Foster (GF) Jim Meehan (JM)  
Ron Wade (RW) Shaun Booth (SB)  
Alan Burns (AB)

1. As the meeting had been requested by DWOR, JM outlined the purpose of the meeting. He said that AB had prepared an evidence document and would like to 'walk through it' with SV.
2. Picking up on a comment that JM had made in the introduction, RW reiterated that SV would not be making any planning application for a car park on the Rec.
3. AB then proceeded to go through the Evidence Document highlighting the key elements.
4. RW pointed out that although neither he or GF had commented on the issues raised, that this should not be construed as tacit agreement by SV.
5. General discussion followed with both parties concluding that there was a great deal of agreement on a lot of the issues facing Standish between the two groups.
6. JM said that DWOR would provide help and assistance to SV with getting its plan approved at the referendum if it didn't contain a proposal for a car park on the Rec.
7. GF said that the SV policy on the Rec would be made public when the draft plan was published by the end of summer.
8. AB said he had a proposal for an alternative car park in the village centre which he hoped to submit a pre planning application enquiry for. GF said that SV would provide assistance with this if required.
9. GF said that SV were actively pursuing an alternative car parking solution involving a commercial operator.
10. RW closed the meeting by thanking AB for the amount of work he had put in preparing his Evidence Document.

## 400m to bus stop justification

The distance of a maximum of 400m in the context of Standish is recommended in the Chartered Institution of Highways and Transportation 'Buses in Urban Developments' guidance (2018), especially when Standish's higher than average elderly population is taken into consideration.

Here is an extract from the guidance: A.4.5 Walking distance to bus stops and hubs. The planning of development sites should consider the walking distance to bus stops and the corresponding bus catchment areas. This affects the distance between adjacent bus routes and hence the street layout as a whole.

Custom and practice for many years suggests a maximum walking distance of 400 metres from a bus stop (DOE, 1973). There are a number of factors, however, that demand a more rigorous approach to catchment area planning.

1. The 400-metre criterion dates from a time when bus use was less challenged by competition from the private car, and it may not be consistent with the goal of shifting mode share from car to bus. Bus Services and New Residential Developments (Stagecoach, 2017) strongly recommends that all housing development be located within 400 metres of a bus stop and preferably closer;
2. The acceptability of the walking distance is not a stand-alone consideration. People take account of the total journey travel time, including the 'in bus' time as well as the walk at either end. Consequently, people will accept longer walks to reach bus services that are fast and direct, or more frequent, and to stops serving a wider range of destinations;
3. The proportion of elderly people is increasing. A walking distance of 400 metres may be excessive when slower walking speeds are taken into account. People with children, buggies, heavy shopping, and the like will also be more sensitive to distance;
4. Acceptable walking distances are lower in town centres than in residential areas;
5. The quality of the walking route itself may affect people's judgement of an acceptable walking distance. Safe routes, well overlooked and with visual interest along the way will be perceived as less onerous than isolated, poorly lit and uninteresting routes;

Taking all these factors into account, it is recommended that new developments be planned with sufficient compactness and density to enable the maximum walking distances to bus stops shown in Table 4 to be achieved with viable services. These maxima are intended to enable the bus to compete effectively with the car and to benefit a wide range of people with differing levels of motivation and walking ability.

These standard distances should not be applied uniformly without regard to the specific characteristics of the particular location or route. For example, a shorter maximum distance may be appropriate for hilly terrain, or for access to hospitals or older people's residences, or where the walking environment is unattractive.

When planning bus routes and stops in relation to new developments, it is crucial to use actual walking distances and not notional circles whose radius is the maximum desired walking distance. Even with a regular grid layout, the actual walking catchment area will be less than two-thirds of the area described by a circle (Figure 12, in report). The proportion can be very much smaller than this in irregular layouts. Also, the average time taken to walk the distance may be extended where the crossing of major roads is involved, and this should be taken into account.

The 400m distance is also recommended in Bus Stop Design Guide, a planning guide produced by Road Service and Translink, Northern Ireland (2005)

(<https://www.planningni.gov.uk/downloads/busstop-designguide.pdf>) and also in Creating Places - achieving quality in residential developments (2000) – a guide produced jointly by the Planning Service, an Agency within the Department of the Environment, and the Roads Service, an Agency within the Department for Regional Development.

This guide is intended to help developers achieve high quality and greater sustainability in the design of all new residential developments in Northern Ireland. An extract states: 9.16 Bus stops should be within easy reach of all dwellings. Around 100m should be the maximum walking distance for dwellings designed for the elderly or those whose mobility is impaired. The majority of other dwellings should be within around 200m. The maximum walking distance should be around 400m. Where sites are hilly these distances may need to be reduced.

## IMD 2015

LSOA code (2011)	LSOA name (2011)	Local Name (Wigan Council)	Index of Multiple Deprivation (IMD) Rank (where 1 is most deprived)	Index of Multiple Deprivation (IMD) Decile (where 1 is most deprived 10% of LSOAs)
E01006238	Wigan 002E	Standish Centre	6714	3
E01006317	Wigan 001C	Standish North	17744	6
E01006232	Wigan 004B	Chorley Road	24995	8
E01006229	Wigan 002A	Green Lane / Standish Centre	24152	8
E01006316	Wigan 001B	Shevington Moor	26827	9
E01006315	Wigan 001A	Pepper Lane	26156	8
E01006237	Wigan 002D	Bradley Hall	30928	10
E01006233	Wigan 002C	Wigan Road	27100	9
E01006319	Wigan 001D	Woodhurst Drive	29107	9
E01006230	Wigan 002B	Ashfield	24882	8

Column D ranks Standish LSOAs (neighbourhood's) against all 32,488 LSOAs in England  
Column E places these rankings into deciles of deprivation eg Whitley / Wigan Lane is ranked 30,901 out of 32,488 LSOA's in England. Therefore  $(30,901/32,488) \times 100 = 95$  percentile for least deprived anything above 90th percentile appears in the top decile (i.e. is least deprived).  
The most deprived LSOA (neighbourhood) in Standish is Standish Centre and appears in the third decile.

## Health of Children
