The Deal for Communities Investment Fund Summary	18-25

# Introduction

---

The Deal for Communities Investment Fund was launched to support residents with innovative and bright ideas to help the council achieve its vision set out in The Deal for the Future 2020. The funding forms part of The Deal, an informal contract between the council and residents and includes a commitment for both sides to work together to make Wigan Borough a better place.

Since launching the fund in 2013 we have supported community groups and projects who are working towards improving outcomes for local residents with £9m invested by the end of 2017. This demonstrates how committed we are to supporting local communities. You know your local area better than we do which is why we have created the opportunity for the community to take control and make a difference. Thank you to everyone who continues to work with us to improve our borough. Together we can make a real difference.

# The Deal Behaviours

---

The Deal is an informal contract between residents of the borough and the council. It is a way of working that underpins everything that we do. Fundamentally it signals an asset based approach; a new conversation focussing on a person, their skills, abilities and what's important to them. It encourages self-reliance and independence through an equal partnership. In order to deliver this vision, we recognise the importance of working together with communities; along with the crucial role of 'a strong, dynamic and diverse voluntary and community sector,' plays in achieving this.

As part of our new relationship with residents of the borough we want to make our part and your part clear by setting out a contract. To help us achieve our vision we need to work together with communities. We recognise that the we need to change the way we behave in order make our vision a reality. We also need to encourage and support behaviour change in our communities. That is why it is a deal – to allow us to achieve our positive vision for the future together.

As a community group or organisation that has successfully received funding from us, we want you to understand our priorities and follow our Deal behaviours. In return, we as a workforce will ensure that our behaviours match this work as best as we can to improve the borough together.

All investment funded groups are registered on Community Book. Community Book is an online platform that allows people easy access to local groups, volunteering opportunities and events in the Wigan Borough. This ensures that all of the invested groups are promoting their activities and services to the wider community, so everyone can benefit. <https://www.communitybook.org/>
