

We need your help!

Project Overview

Registered charity, children's nursery/community fridge/sessions for community/soft play/room hire.

What support is needed:

We have a problem with a floor in one of our rooms, it is concrete and two areas have cracked and are now uneven. We are looking for an organisation who could remove the existing flooring of Lino and repair the floor and replace with new lino. We can pay for some of the materials its just the expertise we need.

The Childcare & Community Centres

What difference it would make to our project?

Flooring would be level and better for staff and children, we would be able to replace with new lino which would freshen up the area.
