

**Pest Control Guidance Document:**

Listed below are the insects and pest that Wigan Council Pest Control Department do not treat.

<p><b>White Shouldered House Moth</b></p>	 Two White Shouldered House Moths are shown against a light grey background. They have a distinctive white patch on their forewings and a mottled brown and black pattern on the rest of their wings.
<p><b>Case - Bearing Clothes Moth</b></p>	 A Case-bearing Clothes Moth is shown against a light grey background. It has a brown, fuzzy body and a prominent, fan-like structure on its back, which is used to carry its eggs.
<p><b>Common Cloths Moth</b></p>	 A Common Cloths Moth is shown against a light grey background. It has a reddish-brown head and thorax, and long, thin, light-colored wings.

**Indian Meal Moth**

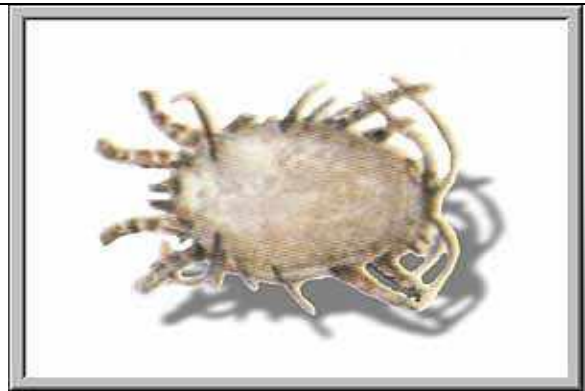

**Warehouse Moth**

**Plaster Mite**

**Paper Mite**
