**Key:**

**Eastern Gateway**

Cycling and walking improvements through the gyratory. The works also include junction upgrades within the area to improve access into the town centre for pedestrians and cyclists from the East of the borough.

**New Market Street**

Super crossings linking the colleges to the town centre

**Wigan Town Centre Cycling**

Plans include providing a segregated cycle route which will act as a ring road around the town centre. To compliment this we will ensure cycle parking facilities including parklets are placed around the town centre to allow cyclists to get as close to the pedestrian zone as possible.

**Central Boulevard (Southgate)**

Wallgate through to Southgate public realm improvements, which include creating segregated cycling facilities linking the town centre to Wigan Pier Quarter.

**Potential Future Walking/Cycling Links**
