

# How do we combat Air Pollution?

## Task 1:

Why do you think there are problems with air pollution locally?

Write your ideas down here:

## Task 2:

Look at the images, either on the sheet or on the screen, and sort them into the following categories:

- Major Sources of Air Pollution.
- Minor Sources of Air Pollution.
- Zero or Negligible Sources of Air Pollution.

Source	Category	Notes
Cars in traffic with exhaust fumes		
Electric car		
People walking		
Solar panels		
Coal fired power station		
People cycling		
Buses with hybrid power system		
Trains with electric power lines		
Open fire		
Volcano		

**Task 3:**

Look at the ten suggestions for changing the way people use transport to reduce pollution, and select three for each box:

People in your local area will be persuaded to do these:

These will make a difference to air pollution levels:

**Task 4:**

Write a 100-word social media post to persuade local residents to adopt your three chosen strategies.
